BUCKEYE HYBRIDS is developing a strong reputation for our **private** wheat variety performance.

WINFIELD – Very early variety with full-season yield potential. Excellent head scab tolerance (aka Fusarium Head Blight). Key product for double-cropping soybeans.

TATUM **New!** - Very early variety with aggressive tillering, very good standability, and strong yield potential. Very good head scab tolerance. Another great product to use for double-cropping.

MEYER - Smooth head, medium maturity variety that has been our leading seller. Excellent head scab tolerance and standability. Good variety for spring manure applications. Nice straw yields.

PACE - Full season variety with aggressive tillering and ultra-high yield potential. Excellent standability and head scab tolerance. Responds to high management fertility and fungicides.

Three-Year Strip Test Results

Location: Ada, Ohio
 Planted: Sept. 27, 2020; Sept. 30, 2021; Oct. 3, 2022
