BUCKEYE HYBRIDS is your best choice for **private** wheat varieties with high performance.

TATUM - Very early variety with aggressive tillering, very good standability, and strong yield potential. Very good head scab tolerance. A great product to use for double-cropping.

HAWK - New! Very high yielding product in experimental trials and our production fields. Bearded wheat with strong agronomics and very good head scab tolerance. Great disease package.

MEYER - Smooth head, medium maturity variety that has been our leading seller. Excellent head scab tolerance and standability. Good variety for spring manure applications. Nice straw yields.

PACE - Full season variety with aggressive tillering and ultra-high yield potential. Excellent standability and head scab tolerance. Responds to high management fertility and fungicides.

Four-Year Strip Test Results, Ada Ohio (No foliar fungicide applied to these trials)

Product	Comments	RM	2021 Bu/A	2022 Bu/A	2023 Bu/A	2024 Bu/A
